# Steps to get the GitHub API Access Token

➔ Sign in to https://github.com/
➔ Click on your **Profile** on the top right side and from the menu select **Setting**

➔ You will be redirected to the new window. Select **Developer Settings** from the left menu.
➔ In the new window click Personal access token and from drop down select Tokens (classic)

➔ Click on the **Generate New Token** and select **Generate New Token (Classic)**
➔ Fill the entry field **(Note)** with some name for this token
➔ Select the expiration date (usually 30 days)
➔ Select Scopes
   o Repo
   o User
   o Project
➔ Click on **Generate Token**
➔ Copy the **Token** and keep it safe

(Good Luck)
